EXPERIENCE

St. Mark's Presbyterian Church | *Administrative Assistant* | Hybrid

March 2024 - Present

- Communicate with church members, elders, deacons, and pastors to coordinate operations and services, ensuring smooth and efficient church activities and events.
- Collaborate with the church accountant to maintain accurate financial records, support effective budgeting, and ensure timely processing of transactions.
- Prepare and finalize reports by coordinating with multiple church committees, ensuring accuracy, consistency, and timely submission of documentation to leadership.

Horizon Science Academy High School | *Computer Technician* | Cleveland, Ohio

June 2021 – July 2022

- Repaired and maintained school computers by replacing damaged screens, updating software, and ensuring optimal functionality to support student learning.
- Monitored and recorded computer inventory, tracking functional and broken devices to support timely maintenance and resource allocation.

PROJECTS

Ants | <https://ants.webtoys.dev/>

Completed December 2025

- Collaborated on a team of 9 using Agile Scrum to build an interactive game over 12 weeks.
- Developed core features using p5.js, implementing gameplay logic and visual behavior.
- Wrote and maintained extensive tests to verify functionality and prevent regressions in the codebase.
- Utilized GitHub Actions for automated testing and continuous integration to ensure code quality.

Travel Advisory | <https://emmanueluka.github.io/FreshJun/>

Completed February 2025

- Built an interactive map-based tourist health summary that displays each country's most prevalent disease, air pollution death rate, and sanitation level.
- Designed a risk calculation system that integrates health and environmental factors, enabling travelers to make informed decisions about potential risks.
